

THE SF EMERALD Dynasty Trust

O: (856) 812-4892 E: ddennis@sfemeraldtrust.com

SUBJECT: Private Institutional Submission
Preliminary Validator Review Request
June 12, 2025

Dear Intended Fiduciary Recipient,

I am contacting you in my capacity as the authorized Private Fiduciary Executor (PFE) of The SF Emerald Dynasty Trust, a private dynastic fiduciary estate with proprietary financial instruments prepared for structured private capital and wealth disbursements.

We are currently engaging reputable boutique institutions and seasoned private bankers to:

- Conduct a pre-disbursement review of our trust-backed financial instruments
- Issue a soft validator acknowledgment for internal compliance records
- Explore potential coordination for optional disbursements (i.e., no debt liability)

The trust is fully prepared to offer a post-disbursement incentive or back-end consulting fee upon final compliance validation — no upfront costs are expected of your institution.

Attached are redacted versions of the necessary trust authorization documents, financing summary, and fiduciary obligations for your soft review. Upon mutual interest, we can furnish full compliance sets under NDA, if required.

Please confirm if this pre-monetary validator review is in consideration of what your office or institution would be comfortable facilitating. Our goal is to move toward a structured fiduciary disbursement arrangement, entirely within private fiduciary channels. We appreciate your time and look forward to your consideration.

Sincerely,

Dashawn-T. Dennis

Dashawn-Terrell Dennis

SUBJECT: Private Capital Disbursement
Preliminary Validator Review Request
June 2, 2025

To Intended Institutional Recipient,

I am contacting on behalf of THE SF EMERALD DYNASTY TRUST, a privately administered entity structured under Delaware Trust laws, specializing in wealth preservation, structured financial transactions, and long term, trust-backed asset strategies.

The Trust is seeking to engage with a financial institution that recognizes structured trust instruments for fiduciary recognition, disbursement and settlement, and strategic formation. Our objective is to assign and structure non-cash wealth instruments, ensuring an optimal framework for mutual benefit, security, and compliance with applicable financial regulations.

Given your institution's experience in handling structured obligations, private disbursement facilitations, and private placement instruments, we believe this engagement aligns with your expertise and capabilities.

INSTITUTIONAL BENEFITS:

Participation in this trust-based engagement offers—

- Access to trust-backed instruments for structured wealth and financial positioning.
- Enhanced institutional reserves through long-term trust assignments.
- Alignment with credible trust methodologies recognized in legacy financial frameworks.
- Risk-mitigated participation in structured fiduciary transactions.
- Opportunities for incentivized liquidity disbursements, and ongoing fiduciary, institutional, and trust relationships.

Sincerely,

Dashawn-T. Dennis

Private Fiduciary Executor (PFE)

for **THE SF EMERALD DYNASTY TRUST**

THE SF EMERALD Dynasty Trust

O: (856) 812-4892 E: ddennis@sfemeraldtrust.com

The Trust seeks formal recognition of the following financial instruments, which have been carefully designed for institutional placement, fiduciary allocation and transactional disbursement, structuring in alignment with Institutional and Treasury standards.

As the Private Fiduciary Executor (PFE), I am fully authorized to execute structured financial transactions, private financing arrangements, and non-cash obligations on behalf of the Trust. Given the importance of ensuring transparency, compliance, and recognition within the fiduciary sector, this attestation will serve to:

- Verify and confirm the trust's legitimacy as a Private Fiduciary Estate.
- Certify the structured financial instruments associated with the Trust.
- Provide formal authentication for fiduciary execution and non-cash settlement activities.

1. Perpetual Funding via Reinvestment

Upon fiduciary disbursement, the wealth instruments will be used to establish a rolling asset-backed structure, such as gold-backed securities, private sovereign-level guarantees, or similar long-term assets. This ensures that the Trust will continuously reinvest, thereby generating a perpetual income stream without external liquidation.

2. Compounding Financial Instruments

Fiduciary disbursements will be reinvested in high-value performing assets that can compound over time, maintaining the long-term wealth of the Trust.

3. Private Banking and Institutional Alliances

The Trust will seek to align itself with institutions offering private fiduciary arrangements to serve future growth, leveraging legacy wealth preservation models that allow for the continuous transfer of value through successive generational timelines.

Dashawn-T. Dennis
